Reflections of my reign and parting words. Well.....why does it have to be so hard to put it all down on paper. Please bear with me--this ain't easy!

First, I want to welcome each and every one of you. Thank you for sharing this evening with Jerry and me. I am deeply honored and pleased to see each of you. Please forgive me if I seemed rushed or distracted when I first saw you this weekend--there was still so much left to do.

Anyway, back to reflections. My reign.....well, it's been SPACE MOUNTAIN, the TIDAL WAVE, SWISS FAMILY ROBINSON and THE PIRATES OF THE CARIBBEAN all rolled into one. This year I have been a dancing dildo, a nightclub announcer, a soldier, a matador, an Edette, a cook, a bartender, a judge, a stage manager, a mute, a duet, a solo and a martyr. I was the MAD HATTER, Wonderland was my home, with its dreams, nightmares and fantasies. I felt the pains and the frustrations, as well as the joys. It has all been "real" for me. I lived it all. I experienced the highs, the lows, the disappointments and the triumphs. And now as the end draws near, I can't help but think of the people I have met through my travels that touched my heart.....GENE BETTIS: Thanks for the encouragement, and the M&M's--they were real lifesavers.....SUZANNE of Vancouver, USA: You had been there; you understood; you helped..... KEN PEACOCK: In Stockton you helped me see the light at the end of the tunnel..... JACK of Modesto: You helped me feel like I belonged, even when I didn't.....SHANNON: You made me feel appreciated.....CONNIE of Vancouver, USA: The night we spent together was great--we both got a lot off our chests.....BILLY TREE: You always kept the faith.....GRAND MAMA ODESSA, MOTHER CHRIS and CAROL MERRIL: You all managed to say the right thing at the right time.....My dear friend DAVID of Reno: You most of all shared my experience. It has been said that obstacles build character and backbone; this year should have tripled ours--"here's to the worm", my friend.....EL DANA: You were there, thanks.....DARLENE of San Jose: Thanks from CJ and myself.....TO ALL THE REST: I have not forgotten, just ran out of room. Thank you for making my reign a memorable one.

I also think of the people who made it possible, and who shared my reign. To all of you from Fresno: "Hey guys, WE really made it!" We worked hard, and it's all down hill now. Thank you. To those special people.....JJ: You believed; you stood up for; and you understood why. Thanks.....JACKIE & TIM: Both of you cared; I needed that.....BRENDA: You have been there since the very beginning. I'm not sure how, but I'm glad we're friends.....WRS,JR: If you were my own flesh and blood, you could not have made me prouder this year. Your faith helped me find mine. For this I am truly grateful.....BOB S: We shared pieces of our pasts--you listened, I rambled--we drank lots of coffee. It all helped.....DOUG B: We were not always on the same side, but you gave me something positive these past few months I can't quite explain.....JOHN OSBORNE: Even when I couldn't believe, you did. When I couldn't fight, you stood in for me. You were superb! You are one helluva "pinch-hitter".....LES G: We shared our passion for our community. We didn't always agree, but we believed in principles over the difference in personalities--especially mine. You had a dream years ago, thanks for letting me share it. And NO, my wife doesn't do THAT anymore!!.....BRUCE: You knew my needs and always came through--like the day at the theatre when you handed me sacks full of nails, a hammer and said "build". You now have a pair of heavy, but indestructible, platforms. In exchange I received more than I have room to mention. You have gently guided, sometimes prodded, and occasionally shoved--but always with love. You, when no one else tried, understood without effort. For all this, and much more you have given me the past four years, you have my respect. But most of all you are my friend, and I love you. Now can I please have my wife back!!.....EMPRESS IX JERRY: We started this reign in a blaze of unity--two individuals whose dreams and goals merged together to form one purpose: to best serve our community and its causes. We ended it with much of the same passion and blaze with which we started. The middle is only history. Someday the record will show--whether you were right or wrong--I always stood by you in friendship and love, and I always will.....CINDY J: When the demon in my fear chased me through those sleepless nights, you comforted me. When the turmoil swept my body, the anger chilled my soul, and the sleep still evaded me, you weeped with me 'til all the frustration disappreared. You held me in your arms 'til many dawns came and went. You sheltered me in a cocoon of your love 'til I could see the beauty you said each dawn promised. You helped me see past all the yesterdays, so I could focus on the tomorrows. You knew I had purpose--you gave me strength to climb again, and soar. You are not just my lover, you are by BEST FRIEND. For all of this, I thank you.

Oh yes, the parting words.....Once again thank you all for attending this evening. You have helped to make this evening one I will never forget. In parting, the 9th Imperial Dove Court de Fresno has worked long and hard to make this an entertaining weekend, especially this evening. So sit back and feel the excitement. Just let your eyes and ears experience the pride we share in Fresno. Join in on our celebration!

JERRY

A year ago I chose to serve a community of which I was most proud. Proud of the goals set forth in every organization, and proud of the willingness to work together to see those goals become realities. I took on that challenge with love in my heart. As my reign comes to a close a feeling of warmth touches upon my shoulders.

During all the frolic and hard work I have developed many new friends. It has been fun serving the community with these new friends, developing a feeling of fellowship, and sharing that with others. Although there have been alot of good times, things weren't always smooth and happy. Because we each have our own minds, ideas and endeavors--which makes us all unique in our own way--and in spite of the fact that we did not always agree, or did not understand one another--and were fighting mad at times--most of us stuck together and worked things out. The disagreement and discontent with one another has made each of us look at things alot closer. In my analysis the good and bad have ended in balance. I can honestly say that I am proud to have worked and learned from each of you.

To the Court members that have worked so hard "thank you" sounds so incomplete. Your spirit and enthusiasm is what makes us all proud of Fresno. Your hard work, talent and dedication has made Fresno a town others look up to. Without you there would be no fellowship or organizations. A special thanks to those who created new ideas and stood by their personal convictions and made them work. To the Court members who sometimes were overshadowed, you always kept things fun, entertaining and on the light side--you made it possible for me to finish what I started, even though at times I didn't want to. I love all of you.

To the Privy Council and Imperial Family: I loved you before and will love you after, no matter what has gone over or under the bridge. You are all individuals, each with something different to offer, and for that have earned my respect and thanks.

To Les: It's always nice to know there is someone you can fall back on when things get rough. Your hard work and love is what keeps us hanging on. Your feelings for others, and of what is right for all concerned, creates the "unity" of which Fresno is so proud.

To Cindy: Although it hasn't been the smoothest year in history, it deserves a small chuckle or two. Thank you for showing me strength and determination to hang in there. Thank you also for your willingness to forgive and forget, so that we could finish this reign together. Your hard work and efforts for this community will never be questioned. Be proud!

To Doug: Thanks for being there, and being the one person who understood me and what I was going through, and never questioning it. Thanks for giving me the space that few did. The gentleness and unselfish committment you have given to me, and others, will be paid back ten-fold. I am so proud of you, and what you stand for. I am proud that we shared part of our lives with our community, and others. It has enriched our lives. I look forward to stepping down tonight, so that we can be together again. I love you.

When things at home get too busy and too hectic, one needs a break. I have learned that traveling gives that much needed release from the daily pressures of home. In my travels throughout the western states, I have made many friends. To you I give my thanks for your warm hospitality and friendship. Many of you have been kind and understanding in times of need. As I step down tonight, remember that your friendship will remain forever. Thanks to all--you have touched my spirit.

To the community that I call home: Many fond memories have developed--A lot of friends made ... and a few lost. To those, my feelings will never change. I can only say I'm sorry--I'm not perfect, and never pretended to be. I will always love my fellow man, because there is good within all of us. As this next year begins, all I ask is that we, as members of this community, look at our friends and leaders of our organizations, and realize that they are people with feelings, and sometimes make mistakes, in hope that we can analyze these mistakes, correct them, and grow from them.

As tonight comes to an end, it will be a "memory" - a memory that I will cherish, because Fresno is "home" - something I believe in. I really appreciate your being here tonight. I hope you have a wonderful time.

With Much Love,

Jerry
